CAYEN AfterSchool

Program Management Software
Easy, Efficient, Effective

CAYEN AfterSchool

Any Program ... Any Size

Cayen AfterSchool is the most flexible and easy to use online program management software for After School and 21st CCLC programs on the market today. Specifically designed to accommodate programs regardless of size or scope, Cayen AfterSchool streamlines data collection for administration, generates accurate and complete APR compliance reports, and provides multi-site access for program monitoring and evaluation. With Cayen AfterSchool, you have the assurance that your programs are running smoothly ... every step of the way.

Perfect For Any Program

Before/After School	Extended Day
21st CCLC	Day Care
Summer Programs	Early Childhood Education

States & Districts • Large & Small Programs

Key Highlights

- 21st CCLC APR/PPICS Reports
- Monitor Multiple Sites in Real Time
- Multiple Attendance Collection Options
- Perform Statewide & District Level Evaluations
- Student Data Imports
- Community Partner & Contribution Tracking/Reporting
- System Generated Rosters
- Quick Setup of Activities/Sessions

Key Features

Registration

Cayen Systems makes registration easy by importing student data from district or state student information systems. When a new participant is registered, Cayen AfterSchool is populated with current student information, including an accurate student ID, address information, demographic data, and more.

The Registration section features areas to capture student specific notes, goals, and contacts made between after school staff and parents, teachers and other key stakeholders.

Grades and test scores can be imported or entered manually with our quick entry features.

Activities & Sessions

User friendly screens allow quick and easy setup of multiple activities and sessions. Streamline the setup process by copying sessions for different times and locations as needed or by quickly creating activities for various centers at the organization/grantee level. Connect program goals to each activity for future evaluation.

Assign staff members to various activity sessions and simultaneously place their name on the attendance roster and related activity documents. Relate funding sources, community partners, and staff to activities to further meet reporting requirements and evaluation efforts.

Attendance Collection

Record attendance by participant, activity, date of participation, and actual in/out times. Conveniently copy attendance for participant groups across multiple activities. In addition, an attendance record can contain notes about the day's attendance such as behavior, material covered, etc.

Optional biometric finger scanning and bar coded roster capabilities increase the efficiency and accuracy of attendance collection.

Reporting

Cayen AfterSchool offers a multitude of summary and detail reports that can aid in the analysis of your overall program, individual participants, staff, activities, and funding sources.

All reports can be previewed on screen before printing and many can be exported to Excel. Each report has a detailed Report Description that explains how each number on the report is calculated.

Cayen AfterSchool 21 includes each section of the federal 21st Century Community Learning Center Annual Performance Report (APR). For statewide purchasers, data entry is minimized through the electronic transfer of APR data directly to the PPICS system.

Evaluation

Cayen AfterSchool collects critical data on participants and their participation in various activities. Student grades, test scores, assessment scores, and other data can be imported from student information systems or manually entered for smaller programs. Reports in Cayen AfterSchool correlate participation and these academic variables.

A powerful Search tool can perform unlimited data queries for further demographic, participation, activity, and funding source analysis. All search results can be sent to various reports, mailing labels, and exported to Excel.

Serving After School Programs Nationwide!

Product Versions

Choose the Software that Fits Your Program Best!

CAYEN AfterSchool 21

Cayen AfterSchool 21 is the ultimate tool for assuring 21st CLCC APR compliance. Easy to use, flexible, and efficient, it will save you time, reduce administrative costs, and eliminate the stress of producing complete and accurate APR reports.

The power of the software lies in its ability to streamline site level data collection, automatically aggregate the data, and quickly and accurately generate all required APR reports for efficient PPICS submission. Real time data, is conveniently accessed online from any location, and provides a multi-site view of programs through dozens of convenient built-in monitoring and evaluation reports. State, grantees, and individual sites can feel confident that programs are running smoothly and grant objectives are being met throughout the year.

CAYEN AfterSchool

Cayen AfterSchool is designed to meet the needs of smaller to medium sized after school programs. Two powerful versions allow you to choose the features that best fit your program's goals, budget, and reporting requirements. Cayen AfterSchool will streamline your operations and provide you flexible, easy to use tools to ensure your program's success.

Version 101

Includes: the ability to track attendance by means of barcode, biometric finger scanning, or manually; student registration; activity/session setup; daily, weekly, and monthly rosters; and a variety of built-in reports.

Version 201

Includes all features of Version 101 plus: student data importing; data capture for demographics, grades and test scores, and staff attendance; funding source/contribution tracking; Search tool with Excel data export capabilities; user defined fields; photo ID cards; SurveyMaker module; and quick entry features.
