Management System

Cayen Choice

Experience Matters ... Every Step of the Way

Cayen Choice software facilitates efficient management of Public School Choice programs. Using a single, easy to use, online database, all program details are easily captured for quick recall and simplified management when student transfer requests are received from parents. Convenient features assist in streamlining application processing, managing transfers, generating reports, and enhancing parent communications, while ensuring NCLB compliance.

CAYEN CHOICE

Key Benefits

- Create flexible Choice enrollment input screens to match your district's Choice paper enrollment forms
- Import student data from school district's student information system to minimize data entry and ensure up to date enrollment information
- Export student data to Excel to assist with evaluation of the transfer request
- Generate school transfer approval and denial letters
- Share Choice information with accounting and transportation departments for planning purposes

Key Features

Experience Matters

Application Processing

Ease the burden of time consuming data entry with flexible, user created input screens that match your district's Choice paper application forms. Cayen Systems will upload school district student data to further increase the efficiency of data entry and ensure accurate student information. Previous year's applications are easily retrieved in the system for re-evaluation purposes.

Approvals/Denials

All information is stored in the online database so you can easily review a list of applicants and their requested schools. Simply assign a new school or deny a request with convenient drop-down options. Select from the list of user defined denial reasons to complete the process quickly and easily.

Student Transfers

Managing student transfers has never been quicker or easier. Cayen Choice gives you the ability to export student data to Excel to facilitate the transfer process. If using Cayen SES, the system automatically marks a student as ineligible for SES if they have had a change of schools accepted through Cayen Choice.

Parent Communications

Parent communication is at your fingertips with easy to generate Application Confirmation Postcards and Transfer and/or Denial letters.

Reports

Student data reports can be generated for quick updating of official student records with the student's new schools. Use these reports to easily share Choice information with other departments, like accounting and transportation, so they can plan appropriately for the school year.

Who We Are

Cayen Systems specializes in providing software and support solutions for education related intervention programs. Our flagship products for After School, SES, Public School Choice, and GEAR UP programs are recognized throughout the country as the leading choice for efficiently managing the complexities of data collection, program monitoring, and government reporting.

Our mission is to help our clients provide the best academic support programs possible for their communities. We do this by simplifying their administrative processes with leading edge software, professionally supported with superior service and training. Our passion to serve our clients is evident in everything we do, ensuring excellence ... every step of the way.

Experience Matters

Cayen Systems prides itself on our high levels of experience, quality, and service. Our knowledge of the complexities of program management, allows us to understand the challenges of accurate and timely reporting, and the difficulties of managing multiple funding sources. We are confident that our software and service solutions will provide your organization greater efficiency, increased accuracy, and true value in terms of time and cost savings.

Complete Line of Software for:

- After School Programs (21st CCLC, ASES, TEA)
- Supplemental Education Services
- Public School Choice
- GEAR UP Pre-College Programs
- School Administration
- Nonprofit Administration

Cayen Systems has been serving educational programs and nonprofit organizations for over a decade. Our software has simplified program management for over 260 state and district clients nationwide.
