Success is Measured,
Every Step of the Way

Cayen GEAR UP

Success is Measured ... Every Step of the Way

Cayen GEAR UP quickly and accurately collects the important data necessary for APR reporting and grant analysis. Complete with instant online data access and easy to use report generation tools, a student's progress can be monitored throughout their participation in the program, and beyond.

Cayen GEAR UP's flexible design provides administrators the convenience of combining multiple sites and school data within a single system. With Cayen GEAR UP you can rest assured that success is measured, every step of the way.

Key Benefits

Monitor and Track Program Details

- Parent, teacher, and student participation and activities
- Any activity by participant such as tutoring, campus visits, advising, and mentoring
- All academic information including grades, ACT, SAT, graduation, and college choice
- Advanced placement courses, math and science subjects, and GPA

Manage Data and Reporting

- Sort students by GPA for special events
- Generate reports, including the Annual Performance Review (APR)
- Import grades, test scores, absences, suspensions, and student data from school district's student information system
- Provide documentation to evaluators and partners
- Create custom surveys with SurveyMaker

Key Features

Experience Matters

Participant Records

Maintain a comprehensive participant registration record with fields of information containing student demographics, activity participation, and academic performance. Information can be easily exported to Excel for evaluating student participation and progress.

Registration

Student information is easily imported from the school district's student information system saving the time of manual entry and reducing data entry errors. Cayen GEAR UP stores detailed student, parent, and teacher information for quick reference.

Attendance

Daily attendance can be recorded and tracked for students, parents, and teachers. The parents and students are connected by households, with attendance being taken together or separately per activity. Automated attendance options, such as biometric finger scanning and bar code technologies, increase the efficiency of attendance collection and improve data accuracy. Cayen GEAR UP also generates paper rosters to assist in the attendance collection process.

Reports

Cayen GEAR UP aggregates the data collected to the Federal GEAR UP Annual Performance Report, and a variety of other valuable attendance and academic reports. The powerful Search tool finds exactly the information you need with results exporting directly to an Excel spreadsheet for increased reporting and evaluation flexibility. Over 15 standard reports are included in Cayen GEAR UP to enhance program administration and evaluation efforts.

Program Management & Evaluation

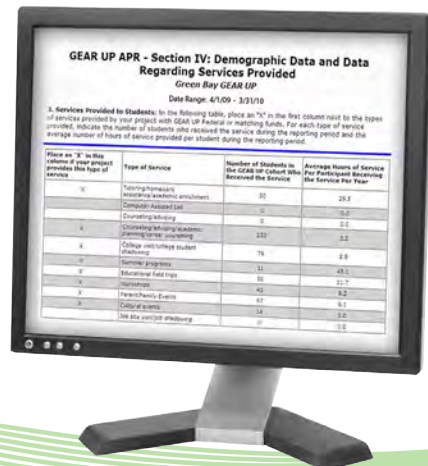

Several tools help maximize productivity throughout the program management process. The centralized online database makes it easy to manage multiple sites with multiple schools per site in a single, easy to use system. Grant analysis, community partnership, and reporting tools assist in staying on track and achieving stated objectives.

Parent Communication

Vital communication with parents, teachers, and students is easy with included tools for generating mailing labels.

Surveys

Obtain valuable feedback from students, parents, and teachers by using the included SurveyMaker tool to create custom surveys. APR Parent and Student surveys, Math or Reading Interest Surveys, College Preparedness Surveys, and any other survey type required can all be generated per your specific needs.

Who We Are

Cayen Systems specializes in providing software and support solutions for education related intervention programs. Our flagship products for After School, SES, Public School Choice, and GEAR UP programs are recognized throughout the country as the leading choice for efficiently managing the complexities of data collection, program monitoring, and government reporting.

Our mission is to help our clients provide the best academic support programs possible for their communities. We do this by simplifying their administrative processes with leading edge software, professionally supported with superior service and training. Our passion to serve our clients is evident in everything we do, ensuring excellence ... every step of the way.

Experience Matters

Cayen Systems prides itself on our high levels of experience, quality, and service. Our knowledge of the complexities of program management, allows us to understand the challenges of accurate and timely reporting, and the difficulties of managing multiple funding sources. We are confident that our software and service solutions will provide your organization greater efficiency, increased accuracy, and true value in terms of time and cost savings.

Complete Line of Software for:

- After School Programs (21st CCLC, ASES, TEA)
- Supplemental Education Services
- Public School Choice
- GEAR UP Pre-College Programs
- School Administration
- Nonprofit Administration

Cayen Systems has been serving educational programs and nonprofit organizations for over a decade. Our software has simplified program management for over 260 state and district clients nationwide.
