

CAYEN SYSTEMS

Streamlining Program Management ... Every Step of The Way

Cayen Systems

Cayen Systems is the nation's leading provider of online program management software for After School, SES, Public School Choice, and GEAR UP programs. With over a decade of experience in the education and nonprofit sectors, we have earned our reputation as the foremost experts in software designed to specifically support the requirements of these programs. Our software streamlines program administration, increases reporting accuracy and timeliness, and improves communication between stakeholders.

CAYEN AfterSchool

Program Management Software, From Start to Finish

Cayen AfterSchool is the most flexible and easy to use online program management software for After School programs on the market today. Since 1998, the implementation, training, and support of hundreds of after school programs nationwide, has given Cayen Systems a level of experience unsurpassed in the industry. Cayen AfterSchool is uniquely designed to accommodate programs regardless of size or scope, streamlining administration, reporting, funding source management, and data collection ... every step of the way.

CAYEN SES

Streamlining SES, Every Step of the Way

Cayen SES is an easy to use, online SES program management software solution that integrates the entire SES process for states, districts, and SES providers with a single, highly intuitive, real time database. Designed to support the reporting requirements of the USDE, it is the most comprehensive and effective online software available for SES program management today.

CAYEN Choice

An Easier Way to Manage Public School Choice

Cayen Choice software facilitates efficient management of Public School Choice programs. Using a single, easy to use, online database, all program details are easily captured for quick recall and simplified management when student transfer requests are received from parents. Convenient features assist in streamlining application processing, managing transfers, generating reports, and enhancing parent communications, while ensuring NCLB compliance.

- Application Processing
- Approvals & Denials
- Student Transfers
- Report Generation
- Parent Communication

CAYEN SYSTEMS

Streamlining Program Management ... Every Step of The Way

CAYEN GEAR UP

Success is Measured, Every Step of the Way

Cayen GEAR UP quickly and accurately collects the important data necessary for APR reporting and grant analysis. Complete with instant online data access and easy to use report generation tools, a student's progress can be monitored throughout their participation in the program, and beyond.

Cayen GEAR UP's flexible design provides administrators the convenience of combining multiple sites and school data within a single system. With Cayen GEAR UP you can rest assured that success is measured, every step of the way.

CAYEN CPIS

Continuous Program Improvement System

CPIS is a web based data system created to facilitate your program's continuous improvement efforts. Using rubrics that detail the areas of desired improvement, CPIS helps you rate performance in each defined area, support the ratings by uploading documented evidence, and set goals for periodic self-assessments.

CAYEN Biometrics

Finger Scanning Attendance System

Our innovative biometric finger scanning options streamline attendance taking, eliminating data entry from paper rosters and ensuring complete accuracy of attendance information. Inaccuracies in attendance records can lead to valuable financial resources being diverted from the students that really need them. Used in conjunction with Cayen Systems' software, our biometric finger scanning system is a cost effective solution to ensure your information is accurate the first time, and every time.

Features

- Parent, Teacher, & Student Participation/Activity Tracking
- Capture All Academic Information
- Annual Performance Review Report
- SurveyMaker Module
- Documentation for Evaluators and Partners

- Online Assessment Tool
- Define Criteria & Performance Indicators
