- Helps SES Programs Meet and Exceed Federal Requirements
- Reliable, Accessible, US-based Support Team
- Practical On-site or Web-based Training
- Flexible Pricing Options for Any Size Program
- Built-in Student Recognition and Rewards Program

Key Features

Enrollment & Placement

Time saving features facilitate quick and easy enrollment using student information imported from District or State Student Information Systems. Cayen SES automatically prioritizes parent's Provider selections ensuring placement expectations. Districts can define additional priorities based on eligibility, space availability, and other criteria. Placement caps safeguard against over placement.

Student Learning Plans, Assessments, and Evaluation

Cayen SES allows Providers to create Student Learning Plans and collect assessment scores online for easy District review and use in evaluation efforts.

Withdrawals, Transfers, & Waiting Lists

Cayen SES manages and documents the student transfer process between Providers ensuring the student's tutoring allocation is never exceeded. Districts can set Cayen SES to automatically withdraw students not meeting attendance requirements and generate waiting lists for sessions that have reached capacity.

Attendance Collection

Multiple automated attendance options (including finger scanning) are available to increase collection efficiency and attendance accuracy. Cayen SES builds, generates, and prints session or tutor-specific attendance rosters.

Invoicing & Financial Management

Unique features safeguard against invoice mistakes and/or fraud. Cayen SES automatically generates easy to read electronic invoices based on recorded student attendance and Provider pay rate. Online submission to the District provides quicker review time. The Per Pupil Allocation can never be exceeded and other district-defined parameters flag invoice discrepancies for accurate payment. Financial summary reports by student, provider, district, and state are included.

Reporting

Generate required reports quickly and easily with Cayen SES. Over 60 built-in reports assist in monitoring: enrollment and placement, financial expenditures, student demographics, progress reports, academic performance, and much more. Countless data query possibilities and optional customizing services further the data analysis power of Cayen SES.

Parent Communication Tools

Engage parents in the SES program with convenient communication tools. An online Provider Services Catalog informs parents of Provider service options, while built-in reports, form letters, and labels make it easy to consistently communicate student progress, provider information, program acceptance, waiting list status, and more.

Secure Data

All data is SSL encrypted as it passes over the internet. System access is defined by user role and secured with a complex login/password protocol. Our investment in state-of-the-art data storage and back up infrastructure protects our clients' data like no one else in the industry.

Who We Are

Cayen Systems specializes in providing software and support solutions for NCLB programs. Our flagship products for SES, Choice, and After School programs are recognized throughout the country as the leading choice for efficiently managing the complexities of data collection, program monitoring, and government reporting.

Our mission is to help our clients provide the best academic support programs possible for their communities. We do this by simplifying their administrative processes with leading edge software, professionally supported with superior service and training. Our passion to serve our clients is evident in everything we do, ensuring excellence ... every step of the way.

Finger Scanning

Cayen Systems' Finger Scanning Attendance System gives Districts and Providers everything they need for efficient and accurate attendance and invoicing. Used in conjunction with Cayen SES software, finger scanning technology is a cost effective solution to ensure your information is accurate the first time – and every time.

Finger scanning unit and software also available separately.

Complete Line of Software for:

- Supplemental Education Services
- After School Programs (21st CCLC, ASES)
- Public School Choice
- GEAR UP Pre-College Programs
- School Administration
