

## School Administrative & Report Card System

---

*SARCS is a user-friendly database system designed to manage the administrative tasks for a small to mid-sized school*

### Key Features

- Track students over multiple years of enrollment
- Create custom report cards to match your school's curriculum
- Input student grades into the system via diskette or local area network, allowing teachers increased flexibility
- Use barcode wand scanner or Palm PDA to scan daily attendance for each classroom, breakfast, lunch and for after school programs from bar-coded rosters or from Photo ID cards
- Generate and print invoices for each student based on meals consumed, after school program attendance and other charges including supplies and/or tuition pledges
- Track information about conferences, discipline and Individualized Educational Plans
- Open source, network-ready database application developed in Microsoft Access

### System Requirements

- 500 MHz PC computer with minimum 128 MB RAM & 100 MB hard drive space
- Microsoft Office Professional 2000 or XP including Access, Excel and Word
- Wand barcode scanner recommended
