

Key Features

Clubs Count is more than a database – it is an organizational tool designed to help Boys & Girls Club branches and administrators manage their memberships, track participant attendance and print out needed reports with just a few clicks

- Manage activities offered, member information including membership dates, emergency contact information, health information, fees and activity enrollment. Also track guest information and generate bar-coded member ID cards
- Track participants' time in and time out of the branch by scanning bar-coded IDs in a slot reader or with a Palm PDA scanner. Printed bar-coded rosters can be used to track attendance at various branch activities; to track activity service hours, use the PDA
- Generate more than 30 reports to assist in administrative and attendance reporting or use the comprehensive search engine for impromptu reporting
- Compile data from multiple branches together into a single dataset for centralized reporting and evaluation

System Requirements

- 500 MHz PC computer with a minimum 128 MB RAM & 100 MB hard drive space
- Microsoft Office Professional 2000 or XP including Access, Excel and Word
