

DataPropeller

Tell Your Organization's Story!

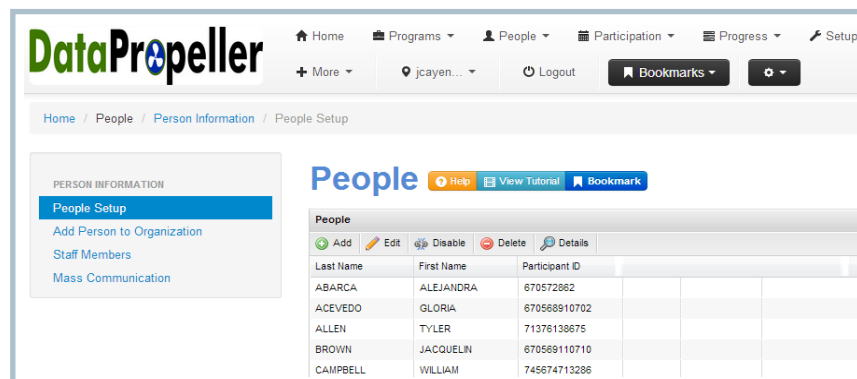

DataPropeller provides your service organization with one powerful online database system to track your people's program participation and their progress.

People Collect information about the individual participants you serve. Create households for easier data collection. Track your staff, board members and others that you contact.

Programs Track programs and activities, including funding sources, staffing, cost per session, dates offered and more.

Participation Record attendance including start and end time if desired. Create paper attendance rosters of those scheduled to attend.

Progress Monitor and evaluate the outcomes (including academic-related outcomes) for each individual as a result of their participation in your programs.
